

PARENT FORUM 12 11 21

Year 11 & 13 have finished their mock examinations, all went really well.

Last week we had the Mayor visiting, this week we have had several guest speakers have been in school speaking to the sixth form students - including two alumni, one Senyo Agbohlah, the Senior Missions Director for the United Nations in the Sudan and Franklyn Addo, a writer/journalist for The Guardian and rapper who supports victims of knife crime.

Sixth Form Open Evening last night was very successful. Just shy of 160 external visitors, totalling over 300 students including the current Year 11 visiting our Sixth Form.

Mr Edwards Head of Year 7 sent out a letter with some information on how to use some of our Apps to use and our IT team will be online today to help with any additional queries.

Access to water and drinks: sometimes the drinks counter is closed. All children are encouraged to bring a water bottle into school to refill. At lunchtimes outside there is the option to refill water bottles or other drinks available, there is no shortage. In the canteen, juice and water are available free of charge but students can also purchase a healthy sparkling drink at a cost of 85p from the drinks counter. Apologies if this has been closed but please note, there is no requirement to line up for a second time just to purchase another drink. The menu on the website currently has some variation due to the shortage of obtaining some produce. Ms Heffernan to meet with Caterlink to discuss further.
