12th December 2019

Dear Parent/Carer,

We would like to inform you about research taking place at Cardinal Pole in partnership with Sport England, Youth Sport Trust and Sheffield Hallam University. This is to understand levels of physical activity and welfare.

The research project requires students to complete a short online survey that asks their opinion of the Physical Education, physical activity and sport opportunities available to them at school. The survey is being conducted on behalf of Cardinal Pole and Sport England, a government body which works to encourage as many people in England as possible to become, and remain, physically active. All data from the study is anonymous, no personally identifiable information is captured, and your child's data will be combined with those of many others and summarised in a report to further protect their anonymity. The survey will be administered once at the beginning of the research and again at the end to document any change in response.

In addition, Cardinal Pole may be chosen for further research, which will include some small workshops that would take place in school time. If you do not want your child to participate in the research study, please contact the school. We are working on an opt out format.

If you would like any further information, please get in contact with Mr McDaid (Head of PE).

Yours sincerely,

Charlotte Brennan
Assistant Headteacher
