

6th January 2021

Dear Parent/Carer,

OVERVIEW OF THE SATURDAY PROGRAMME AND CONSOLIDATION PROGRAMME

The new GCSE specifications have increased the content and the number of examinations. This means that students need to prepare for examinations for a longer period of time than may have been required in the past. To help them consolidate their learning, the school will provide Saturday lessons for the subjects in the grid below. The focus of these days will be revision and consolidation of the material your child covered in Years 9 and 10.

Please help us support your child through this tough exam period. Invitations for these sessions will also be given directly through the year team. Testing takes place on a Monday and will not finish later than 3.30pm.
