<p>I am currently a third-year undergraduate at The University of Essex, now on a placement year at SAP (Systems, Applications and Products). Growing up in Hackney, I recognise the need for mentoring and teachers, colleagues, friends, family, and strangers alike have all come together at different stages of my life to educate me and shape me into the individual I am today. Without these mentors, I do not think I would be who I am today. My motivation is quite transparent, I would like to help others the same way people have helped me. I want to see my local community in a position of thrive, I want all the young individuals before me to be able to have a solidified support network whether that starts from school or through various means such as extracurricular activities. I want change, I have been an academic mentor and sporting mentor as I am a leading defensive football coach. I am also a member of several social mobility and educational programmes such as Bright Network, BYP Network, Amos Bursary, Social Mobility Foundation and ReachOut UK.</p>
